“

Global trade is the heartbeat of a thriving economy, where borders become bridges, and opportunities flow freely.

About Our Company

“Our journey began with a vision to bridge gaps and foster connections across continents. What started as a small venture driven by our founder’s unwavering determination, has now evolved into a thriving import-export enterprise. We’ve overcome challenges, expanded our horizons, and built lasting relationships every step of the way.”

In-Organic Chemical

Calcium chloride Prills

Calcium chloride Prills Technical/ Food

Calcium Chloride Powder

Calcium Chloride Flakes Flakes

• Calcium chloride Prills Technical/ Food

- Physical Appearance :- White Free-Flowing Granules
- Calcium Chloride as (%) by mass :- 94% or above
- ph (1% Aq. Solution) :- >7.0
- Granules Size (mm) :- 3MM
- Matter insoluble in water (%) by mass Max :- 0.05

- We are offering Calcium chloride Powder, Calcium chloride Prills Food specially for wastewater treatments, pharmaceuticals, aquaculture, fertilizers, agriculture, textiles, and emery stones.

• Calcium chloride Flakes

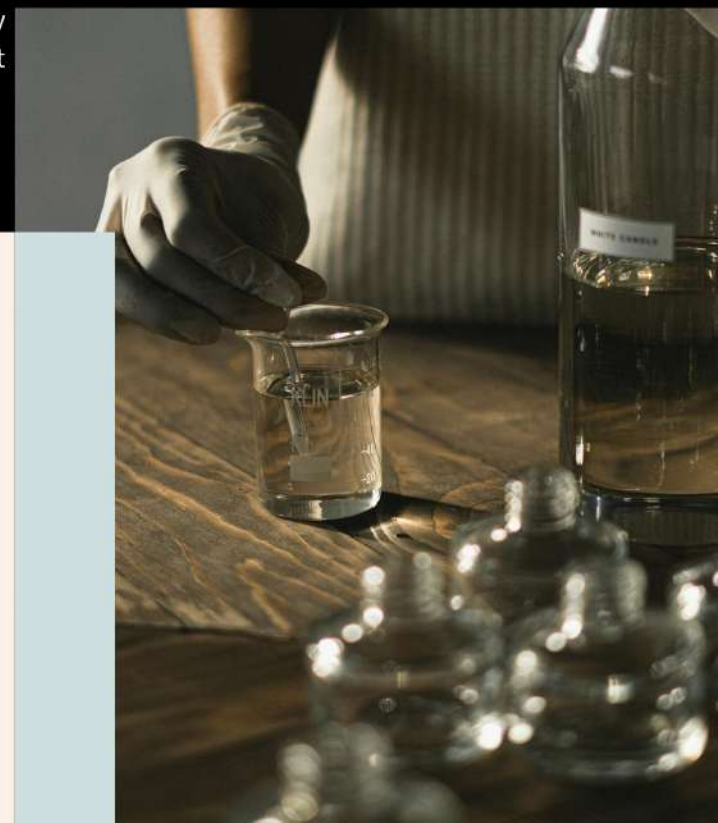

- Calcium chloride flakes: This option usually comes with a 77% to 80% calcium chloride content and water of crystallization.
- Calcium chloride pellets: This option usually with 94% to 97% calcium chloride content and less than 1% water of crystallization.

• Calcium Chloride Powder

- Appearance :- White Powder
- PH :- 9.61
- Water Insolublcae matter :- Not detected
- Color :- < 10 PPM
- Iron Content: 0.064 %w/w
- Assay :- 94.7 %w/w

Calcium Chloride

- Linear Formula: CaCl_2
- Molecular Weight: 110.98
- CAS Number: 10043-52-4
- EC Number: 233-140-8
- MDL Number: MFCD00010903
- PubChem Substance ID: 24873292
- NACRES: NA.23

In-Organic Chemical

Hydrogen Peroxide

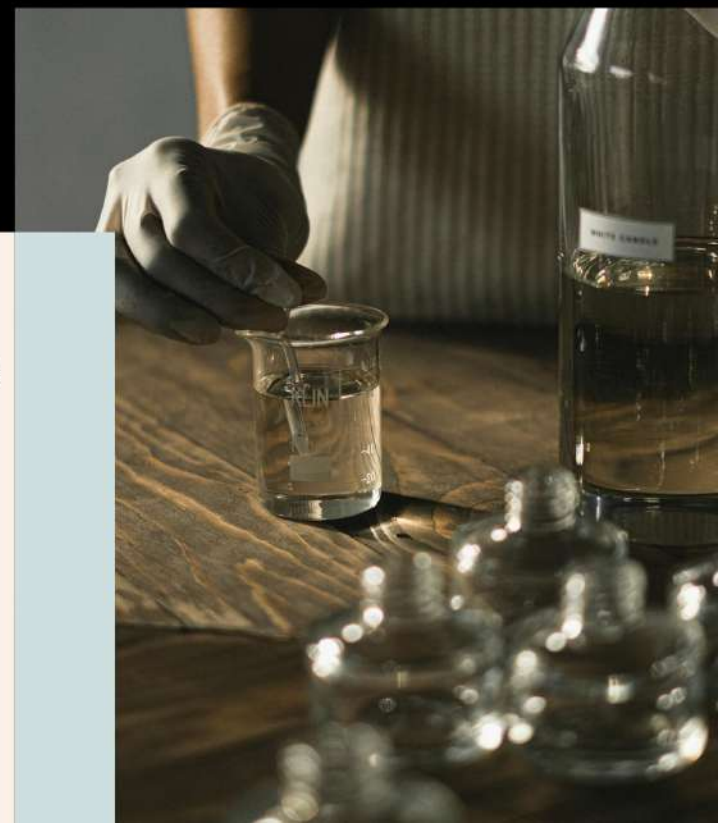

Available Quality:
Hydrogen Peroxide 35%
Hydrogen Peroxide 50%
Hydrogen Peroxide 60%

- We are offering 35%, 50% and 60% industrial grade hydrogen peroxide specially for paper and pulp, textile, pharma and healthcare and other industries. Deliveries are available in carboys of 30 kg and 50 kg.
- **Quality Assurance:** Our products undergo rigorous testing to ensure purity, consistency, and compliance with industry standards.

Hydrogen Peroxide

- Linear Formula: H_2O_2
- Molecular Weight: 34.01
- CAS Number: 7722-84-1
- Beilstein: 3587191
- MDL Number: MFCD00011333

Our Product

In-Organic Chemical

Potassium Chloride

Available Quality:

Potassium Chloride Food Grade

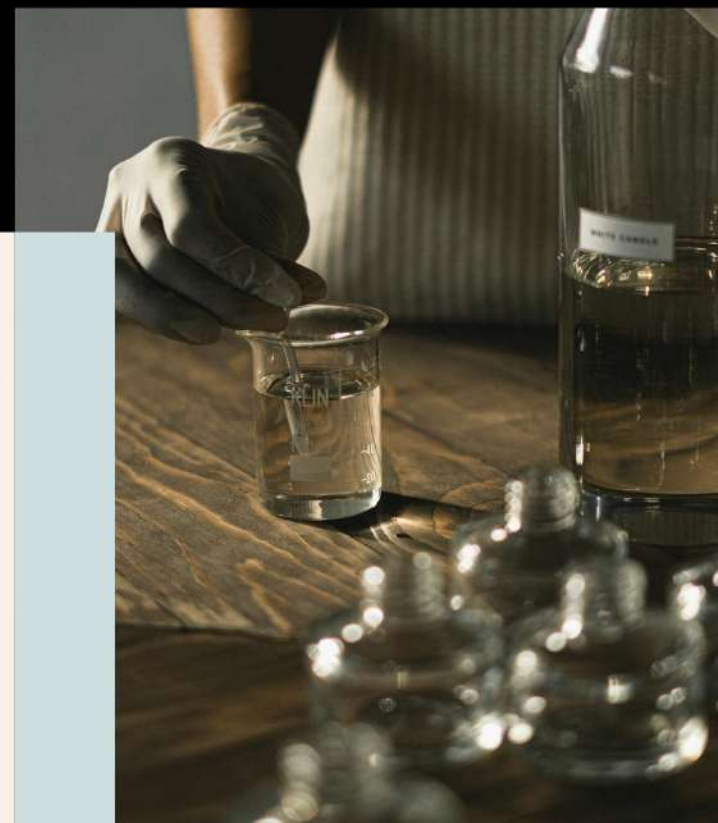

Potassium Chloride Industrial Grade

- Buy from us moisture-free Potassium Chloride that physically appears as crystalline free-flowing powders that are free from odor and unwanted substances. These industrial compounds show good solubility in water with a solubility rate of 339.7 grams per liter at a temperature of 20 degrees Celsius. The offered powdered chemicals can be used in agricultural, medical, and industrial uses that make them highly demanding among our customers. Potassium Chloride hygroscopic powders are highly stable but show incompatibility with various elements such as strong acids and oxidizing agents. Customers can get these industrial chemicals in bulk at a reasonable price range.

Potassium Chloride

- Product Name: POTASSIUM CHLORIDE
- Molecular Weight: 74.55 gm/mol
- CAS No: 7447 -40-7
- Chemical Formula: KCL
- Grade: FCC Complie, & Industrial Grade

About Company

“Understanding our clients’ specific requirements is at the heart of what we do. We collaborate closely with you to devise strategies that align with your goals. Your success is our success, and we’re dedicated to going the extra mile to exceed your expectations.”
